## About This Game

**A thread of three lives confront the personification of appearances as it grows from larva to adult.**

**At the dead-end of the future a telepath assists the embodiment of insanity and is marooned in the mind of a flea.**

**In the primeval past one quadruped forages for food as a sentient cancer swallows the last of Earth's living tissue.**

**Between the present's many crossroads a jobless coolie that cannot die kills for rebellion and revenge.**

**All this as a desire for sleep returns in the heart of existence.**

---

**Where They Cremate The Roadkill features in brief:**

- **-A populating cast of more than 700 unique characters**
- **-Few if any repeated assets with underlayers of content ensconced in half of every corner**
- **-Over 700 hand drawn landscapes**
- **-A fully animated interactive world where even shop vendors and ground worms can be targeted for a fight**
- **-Four playable incarnations of outsiders with visually distinguished chapters**
- **-A musical score of 132 tracks with themes converted from the protein sequences of nematodes (genetic music)**
- **-Dialogue excised from near death accounts, bathroom graffiti, sensory deprivation tanks, witch trials, monastic exegesis and out of body experiences**
- **-Open Exploration with real-time combat**
- **-The death of novelty and an option to assassinate the Illuminati**
- **-Fungivores, Crumb Keepers and Rockings Sharks**
- **-Structurally anomalous, experimentally driven story and gameplay**
- **-The notion that--when the real world is transformed into mere images...mere images become real beings-**
